I Found a Baby Bird

Is the bird injured? YES NO

DO NOT FEED OR GIVE WATER. Call a licensed wildlife rehabilitator.

Does the bird have feathers? YES NO

Is the bird warm to the touch? YES NO

Is the tail less than 1 inch? YES NO

Do you know where nest is and can you reach it? YES NO

Put the bird back in the nest.

Do NOT FEED OR GIVE WATER. Call a licensed wildlife rehabilitator.

Leave bird where you found it or, if you found it in the street, move it to nearby grass. Continuously watch for an hour from a distance. If the parent bird comes down to feed the bird during that time, leave it alone - it is not orphaned. If you do not see a parent bird feed the baby during the hour call a licensed wildlife rehabilitator. DO NOT FEED OR GIVE WATER.
